

Peru since 1982

December 2017

Dear Faithful Ones,

¡ HAPPY NEW YEAR !

We want to wish you a truly happy and prosperous 2018 for our Lord's Glory.

Thanks so much for your faithful prayers and support throughout this past year. God did

some great things using all of us working together. We want to express a heartfelt appreciation for all that has been accomplished in our mission field of PERÚ.

We have now been meeting at our own property for five months. Attendance and offerings are up and constant. Most Sunday mornings we have someone visiting the church for the

first time. We, as a church, have begun to support two new missionary families and two missions' projects as well.

We started a Sunday school class outside in the back under one shade canopy and now have three shade awnings there on a cement slab. It seems pretty obvious that a priority for

the New Year must be construction to expand our space.

Please put our co-pastor's wife, Ivette at the top of your prayer list in the New Year. She will begin radiation treatments within a week or less. While removing the cancerous thyroid gland they also removed a number of lymph nodes on her right side, all of which had cancerous cells present. We do very much appreciate your prayers.
