

2018 / 2019

Dear Support Base,

MERRY CHRISTMAS
&
HAPPY NEW YEAR

Thank YOU for your prayers and special Christmas offerings as we make our plans to return to Peru on January 8th, ending our short medical furlough. My right knee replacement was a success with no complications. I finished therapy December 6th and have a list of exercises to do at home to continue strengthening the knee and affected muscles. I still experience some pain but it is less and less each week. October 2nd they did the replacement, and want to do the other as well, but I think I will wait a while and enjoy life with out a walker, cane, and/or limp for a long while.

ON THE FIELD

A few weeks ago two were saved in our absence and first time visitors come on most Sundays. Last week a group from our church, Iglesia Biblica Bautista, in La Molina helped with a Christmas program in a new church plant in the northern part of Lima. Our church group took gifts for kids, and supplied hot chocolate with

panetone (a holiday bread). Around 300 neighborhood kids came to the special event. Our church in la Molina has supported the missionary and church plant monthly for the past few years, as we have ten others faithfully each month.

We will finish up the holiday season enjoying our grown children and 9 grandchildren, with our two daughters for Christmas and then our son for the New Year.

Just think what we can do together,

Your missionaries
