

AUGUST 2018

Dear PRAYER support base,

before

Sunday AM and PM services with special music, preachers, and even a pictorial review of advances in the work. Please pray

that God would bless with heart changing results in the faithful, as well as, visitors and others who will celebrate with us. Pray that we would see salvation & baptism decisions as a result.

Health Reports

Our son, Cade, has much improved and returned to his daily work schedule. His heart seems strong and functioning, as it should. Our two daughters stay very busy and remain healthy working moms.

Debbie keeps her health in good shape as long as she does not over do it at her semi-daily exercise class. I, Max, am still doing the 3 to 5 flights of stairs at our apartment, but much slower and less frequently. Pray that a tentative knee replacement set for the end of September will come to pass according to the Lord's will. If so, October will be my rehab month.

Our co-pastor, Raul Sinti, has a few minor health issues so keep him and his family in your prayers. Especially pray for his wife, Ivette, who sees the doctor with new test results in a week for another neck surgery and make plans for the next treatment for her cancer.

Just think what we can do together,

Your missionaries

Max & Debbie Harmon
