

JUNE / JULY 2019

Dear PRAYER WARRIORS,

Nine months have passed rather slowly for me since I had my right knee replaced. I am currently using a brace and a cane mainly for the left knee pain. So the time has arrived on July 3rd for another brief medical furlough to get the left knee replaced as well as a few other medical maintenance items. Hopefully, I will have at least a month of rehab stateside and finish it up in Peru. Please pray that all would work out according to HIS will and timing that I could possibly be back in Peru by September.

LOCAL CHURCH MINISTRY REPORT

Pastor Sinti got some of the men together to grill bananas, etc. on the Saturday before Father's Day and watch Peru play soccer.

On Father's Day we handed out gifts to a good number of Dads present and sent some to others who were not in attendance on that special day.

We have two people waiting to be baptized and I just finished up a 9-lesson discipleship course with two others as well. I organized and printed the course in Spanish a few years ago and have since revised it a number of times. A good number of folk in our church have completed the basic discipleship course. We have had one or two first time visitors at every service (AM, PM, & midweek) for the last few weeks. Many of our visitors of late have come as a result of our web page. A young married couple will be joining by letter very soon.

We, as a church, have been asked to assume the mother church role here of a mission work from Japan. We voted to do so this past Sunday. A Japanese missionary to Peru resigned a few years ago but the work continued. We plan to maintain a special sister church relationship with the organized church under the leadership of Pastor Phol Murillo. Lord willing, I will participate in his ordination service sometime in November.

Just think what we can do together,

Your missionaries
